

WAREHOUSE

AUTOMATION

Strategic rollout and implementation roadmap

Updating industries

implementation pillars

Robotic Systems

Deploy 40 autonomous mobile robots
across three facilities

Software Integration

Unified warehouse management system
connecting all sites

Workforce Training

Upskill 200 team members on new
technologies

rollout impact

45%

throughput increase

60%

labour efficiency

3

implementation sites

deployment schedule

Phase 1: Foundation

Q1 2025 — Site surveys and vendor selection

Phase 2: Pilot

Q2 2025 — Deploy systems at primary facility

Phase 3: Scale

Q3–Q4 2025 — Rollout to secondary sites
